

ngena is a global alliance of service providers that will provide international telecommunication network services for corporate customers. ngena stands for “Next Generation Enterprise Network Alliance” and enables its partners to share their telco networks and offer services on a global basis. ngena GmbH is an independent company that is funded by leading global telco companies such as Deutsche Telekom AG.

QA Testing Expert (m/f)

Have you always dreamed of working for an international startup company? Then take this next step into the future and join us as our new colleague as Quality Assurance Testing Expert (m/f) (full-time) in Frankfurt am Main, Germany.

Your responsibilities

- Be part of our team of process designers, solution architects and testers
- Support building our new test framework – tooling, scripting, repository management, regression testing
- Transform business process driven requirements to test cases
- Script and maintain the test cases for automatic regression testing
- Manage the test case repository, script and test data repository
- Test new functionalities and steer and execute regression testing

Your profile

- University degree in business administration and/or computer science
- Proven capability to translate high level business requirements to test cases and implementation of the test cases with scripting tools
- Experience in regression testing in agile SW development and CI/CD environments
- Experience in various test frameworks
- Experience in Java, Python programming, browser application regression test scripting
- Telecommunication wholesale background would be a plus
- Familiarity with networks, eTOM and ITIL would be a plus
- Willingness to work in a multicultural, multi-language, and multinational environment
- Startup, entrepreneurial thinking, and hands-on attitude
- Fluent in English language is a must, German and Polish are an advantage

Your chance

A dynamic, international and cooperative business environment awaits you. In your field of activity, responsibility will be in your own hands from the very beginning and you will be able to actively contribute to the future development of ngena.

We offer challenging tasks with room for creativity and development opportunities within the startup, a highly motivated international team, an open corporate culture of flat hierarchies and a state-of-the-art workplace.

We are looking forward to getting to know you!

If you are interested in this challenge, please send us your complete application including salary expectations and possible starting date via email to myfuture@ngena.net
