

ngena stands for "Next Generation Enterprise Network Alliance". We provide a central cloud platform that merges the local networks of our international telecommunication alliance partners into a single global Software-Defined Wide Area Network (SD-WAN).

Service Rollout and Delivery Manager (m/f/d)

Have you always dreamed of working for an international start-up company? Then take this next step into the future and join us as our new colleague for a full-time position in Frankfurt am Main!

Your new job

- You have the levers and the responsibility to establish and professionally manage global customer SD-WAN service rollout projects and in-life change projects
- You will align with customer organizations and ngena delivery organizations regarding project scope, structure, reporting lines, interfaces, dependencies, status tracking and reporting
- You will actively manage project dependencies, critical paths and work arounds and you keep the achievement status transparent to relevant stakeholders
- You are target-oriented and will keep the customer-agreed project targets in focus

Your assets

- Several years' working experience in service provider or service integrator companies
- You are used to working in multinational environments and to efficient teamwork with customer and delivery organizations
- You are experienced in planning and managing large rollout projects
- You are experienced in and you have a track record on using classical project management best practices
- Communicating fluently in English is no problem for you

Your chance

An exciting, dynamic, international start-up environment awaits you with an open corporate culture of flat hierarchies. At ngena, responsibility will be in your hands from the very beginning. You will continuously grow both on the professional and personal front amongst a diverse team of more than 30 nationalities, varied age groups and a wide range of skill-sets. This fusion will prepare you for paving the world with ngena's leading SD-WAN technology.
