

ngena stands for "Next Generation Enterprise Network Alliance". We provide a central cloud platform that merges the local networks of our international telecommunication alliance partners into a single global Software-Defined Wide Area Network (SD-WAN).

Program Manager (m/f/d)

Have you always dreamed of working for an international start-up company? Then take this next step into the future and join us as our new colleague for a full-time position in Frankfurt am Main (DE) or Kosice (SK)!

Your new job

- Leading software development and engineering programs involving our global platform
- Coordination of the development and release cycle between Development, Product Management, Operation and Quality Assurance teams
- Support managing the software maintenance on multiple technologies across multiple teams spread across different countries
- Steering the solution of critical incident escalations
- Track development/engineering efforts of third party (outsourced & offshore) activities
- Coordinate and facilitate cross-functional collaboration to deliver the best possible results
- Take leadership for selected topics, deliver results and handover to line-function (e.g. setup outsource/insource steering, accelerate platform development, develop vision/mission)
- Drive interdisciplinary projects & programs in an international context & facilitate cross-functional collaboration
- Develop project plans, execute against milestones and be part of strategic decision makings

Your assets

- You're a strong program manager handling complex and demanding environments
- Several years' experience and consistent track record leading and delivering multiple complex projects simultaneously
- Experience in driving and delivering critical project features involving integration with multiple teams across different time zones
- Good knowledge of software development practices and affinity for latest technology trends, especially in telecommunications & networking
- You're able to communicate on all hierarchy levels with a diplomatic but driving attitude
- You're able to create and execute plans in ambiguous settings
- You're enthusiastic about innovative business models, and you enjoy working in an agile environment
- Analytical and financial skills as well as the ability to quickly convert ideas into actions are no problem for you
- Solving problems from different fields with out-of-the-box ideas is what drives you
- You're structured, pragmatic, motivating, and empathetic, and like to be actively involved
- You want to work and flourish in a multicultural team environment
- Excellent command of English; German would be an advantage

Your chance

An exciting, dynamic, international start-up environment awaits you with an open corporate culture of flat hierarchies. At ngena, responsibility will be in your hands from the very beginning. You will continuously grow both on the professional and personal front amongst a diverse team of more than 30 nationalities, varied age groups and a wide range of skill-sets. This fusion will prepare you for paving the world with ngena's leading SD-WAN technology.
