

ngena stands for "Next Generation Enterprise Network Alliance". We provide a central cloud platform that merges the local networks of our international telecommunication alliance partners into a single global Software-Defined Wide Area Network (SD-WAN).

Data Warehouse/BI Product Owner/Architect (m/f/d)

Have you always dreamed of working for an international start-up company? Then take this next step into the future and join us as our new colleague for a full-time position in Frankfurt am Main.

Your new job

- Develop, enhance, and maintain the ngena Enterprise Data Warehouse and its logical data model
- You will own the BI/DW product portfolio, and plan & prioritize with the product management team the roadmap of deliverable items
- You will own the entire BI/DW architecture and be responsible for its evolution and maintenance
- Together with topic owners in the IT team, you will support data model development and maintenance
- Create and maintain standard data marts, views and data sets to enable self-service BI
- Create standard reports and charts and maintain regular publishing processes
- Support in managing our SaaS suppliers to ensure that correct and complete ETL processes are developed, maintained and tested

Your assets

- You have successfully completed your university degree in Computer Science or similar
- You've been working as a BI/DW developer/architect/product owner for more than 8 years
- Good know-how in BI/EDW architecture and profound experience in relational & multidimensional data modelling
- You're experienced in SAFe Agile/Agile/Scrum methodologies
- Profound understanding of DW principles (Kimball or Inman)
- Very good MS SQL Server/Oracle database management skills as well as MS SQL Studio skills, SQL/PL-SQL skills
- Good working knowledge and experience in SSAS and SSIS
- You're familiar with the BSS/OSS telecommunications industry and frameworks (ETOM)
- Good knowledge of at least one Report Generator/BI Front End Tool, preferably Tableau; and know-how in a data modelling tool
- Ideally, background in requirements management and software development
- Good understanding of business metrics throughout the value chain (marketing, sales, delivery, service, finance)
- Desirable Certifications: MS SQL Server, Oracle, and in any BI Report Generator (QLIK, Tableau, Jedox, etc.)
- Communicating fluently in English is no problem for you
- You enjoy working in a dynamic environment with a multicultural team

Your chance

An exciting, dynamic, international start-up environment awaits you with an open corporate culture of flat hierarchies. At ngena, responsibility will be in your hands from the very beginning. You will continuously grow both on the professional and personal front amongst a diverse team of more than 30 nationalities, varied age groups and a wide range of skill-sets. This fusion will prepare you for paving the world with ngena's leading SD-WAN technology.
