

ngena stands for "Next Generation Enterprise Network Alliance". We provide a central cloud platform that merges the local networks of our international telecommunication alliance partners into a single global Software-Defined Wide Area Network (SD-WAN).

## Product Manager - Secure SDWAN platforms (m/f/d)

Have you always dreamed of working for an international start-up company? Then take this next step into the future and join us as our new colleague for a full-time position in the US.

### Your new job

- Responsible for the Secure SDWAN platforms roadmap, strategy and execution of future product offerings
- product lifecycle including new product development, sustainable support of existing products in the portfolio, EOL
- liaise with key technology partners, focusing on Cisco (both Viptela and Meraki), to provide alignment in terms of roadmaps and strategies
- own the in-detail requirement specification, leading the cross-functional team contributing to fully define how to support new capabilities within our platform and our business processes
- create a consistent 360 degree view of new platform or capability introduction, considering all the needed layers from BSS, OSS to Orchestration, Procurement, Fulfillment, Service Assurance etc
- collaborate with Product Marketing, Sales and Customer Success to support the creation of customer-driven messaging, sales enablement tools and thought leadership materials to execute the go-to-market strategy
- Source of knowledge in your field of expertise, including trends and technologies

### Your assets

- 5+ years of work experience as a product manager bringing innovative product offerings and solutions to the market
- Proven track record of definition of SD-WAN services and solutions leveraging Cisco technology
- Experience in aligning technical and commercial product definition to the organization business processes
- Well versed with telecom business processes (B2B preferable) ranging from but not limited to product offering catalog and order handling. Knowledge of COTS BSS/OSS products like NetCracker TOMS, Sigma CRM etc a plus
- Excellent verbal and written communication skills and the willingness to present and defend your ideas
- Customer-focused, self-starter with high levels of initiative, dedication, and energy who can galvanize a x-functional team of Product Owners, BSS/OSS Architects and other key stakeholders to follow
- Experience working in agile/lean environments

### Your chance

An exciting, dynamic, international start-up environment awaits you with an open corporate culture of flat hierarchies. At ngena, responsibility will be in your hands from the very beginning. You will continuously grow both on the professional and personal front amongst a diverse team of more than 30 nationalities, varied age groups and a wide range of skill-sets. This fusion will prepare you for paving the world with ngena's leading SD-WAN technology.
