

ngena stands for “Next Generation Enterprise Network Alliance”. We provide a central cloud platform that merges the local networks of our international telecommunication alliance partners into a single global Software-Defined Wide Area Network (SD-WAN).

Technical Project Manager (m/f/d)

Have you always dreamed of working for an international start-up company? Then take this next step into the future and join us as our new colleague for a full-time position in Košice, Slovakia.

Your new job

- Building the next generation networking platform in datacenters around the world
- Creating and maintaining infrastructure documentation (BoM, rack layouts, network implementation plans, build-up plans, cabling plans) including hand-over to operations team
- Global network build-up - preparing technical proposals towards service providers, aligning on suitable setup and ordering new connections. Overseeing the delivery process, coordination of the local onsite teams until connections are ready for service
- Supporting engineering & operations teams with everything related to physical infrastructure
- Working directly on complex technical problem identification and resolution
- Performing physical installation of devices onsite in specific cases

Your assets

- 2 years or more of relevant industry experience
- Experience with designing, delivering and maintaining network infrastructure
- Hands-on experience with Cisco hardware
- Hands-on experience in datacenter or service provider environment (advantage)
- Capability and experience to communicate with different parties and transform business requirements into technical design and specifications and work with relevant team to drive the implementation
- Proactive and be able to work independently
- Able to create technical documentation and communicate fluently in English

Your chance

An exciting, dynamic, international start-up environment awaits you with an open corporate culture of flat hierarchies. At ngena, responsibility will be in your hands from the very beginning. You will continuously grow both on the professional and personal front amongst a diverse team of more than 30 nationalities, varied age groups and a wide range of skill-sets. This fusion will prepare you for paving the world with ngena’s leading SD-WAN technology.
