ngena Wi-Fi as a Service

ngena
Connectivity Platform as a Service

Wi-Fi as a Service is now “at your service” with ngena

Wireless from ngena is a perfect fit for the hospitality industry

Like running water, electricity, and a clean bed, guests demand strong and free wireless connectivity wherever they travel as an integral part of their stay. But what if your enterprise could get even more return on investment out of your Wi-Fi offering? ngena is leading the way with Wi-Fi that works harder for you and your customers.

The challenges of Wi-Fi for the hospitality industry

Hospitality enterprises may still view Wi-Fi as an expected cost without much return on investment (ROI). Guests expect free, easily accessible Wi-Fi and from an enterprise point of view, wireless offerings are also a great way to build good customer relationships and loyalty to your hotel establishment and brand.

ngena has added an innovative, new Wi-Fi solution to its platform of network solutions to establish a new and dramatically affordable threshold for facility-wide, consistent wireless access connectivity while reducing OPEX by up to 90% and CAPEX up to 30x. Hospitality venues can provide guests with free, enterprise-class, reliable, secure, and consistent interactive connectivity without breaking the bank, transforming wireless connectivity from a cost center into a revenue-generating and cost savings asset.

Transform wireless from an operational cost to a solution with benefits

ngena wireless, driven by their machine learning, with an AI-core, provides significant business operations advantages for the hospitality establishments, and by extension, their guests, including:

Key Benefits

- ✓ Designed to continuously extract cost and operational complexity, reducing OPEX by up to 90% and CAPEX up to 30x.
- ✓ AI-core, true virtualization, SDN and open systems drives “lights-out”, automated, hardware-flexible, 24x7 access network orchestration.
- ✓ Freedom for enterprise organizations from lock-in to expensive, burdensome, proprietary vendor systems.
- ✓ High levels of agility and scalability in access deployment.
- ✓ Our Wi-Fi lowers total cost of ownership to deliver a faster ROI.

We added Wi - Fi to our intuitive platform with our partners and customers in mind, for ease of use to manage your customer’s entire wireless network. Discover Wi-Fi that works for you that you can operate with ease. Contact us today to see how easy it is with a free, personalized demo.

www.ngena.net

Even with multiple locations around the world, we can help you connect state of the art enterprise Wi-Fi at a fraction of the cost of most proprietary vendors. IT teams, managers, and leaders can easily access control of your entire Wi-Fi network straight from an office computer or mobile device from anywhere, at any time. In just a few clicks of a button, node provisioning can occur in minutes. No matter where you are connecting, ngena has you covered.

ngena offers hotels and other visitor stay locations the best in secure, reliable wireless services that can be customized to your needs and connected in a simple, streamlined fashion. Take the complex out of the operational complexities of managing and running your wireless network with the experts at ngena.

We continue to deliver on the promise of being one multi-tech source offering the best in end-to-end network connectivity solutions for hospitality venues of all sizes. And now, ngena delivers the highest quality of wi-fi services to simplify your network operations, at a high value to cost ratio for your operational convenience.

Key Features

- ✓ Automated and cloud-based, virtualized hardware-agnostic solution.
- ✓ Seamless, “single-pane-of-glass” management portal and analytics dashboard.
- ✓ Seamlessly extends corporate use and security policies to the remotely accessed network:
 - Persistently secure VPN connection
 - Radius WPA 2 enterprise functionality
- ✓ Seamless API integration.

Our Wi-Fi delivers **real-time, visual maps about traffic habits and network health.** Now you can run a **more efficient, secure wireless network - all from a cloud-based, end-to-end solution.** What's not to love? Your guests will love it too.

Setup is simple! Select Wi-Fi from the ngena connect. platform to Enhance your connectivity, Deploy network access nodes with ease, and Operate with efficiency, with just a few clicks from our easy-to-use platform interface.

about ngena

ngena is the only global end-to-end orchestrated SD-WAN as a Service company and the first to offer a technology agnostic platform that supports pre-built configurations for fast and secure deployment using its SD-WAN Connectivity Platform as a Service. ngena's solution utilizes cutting-edge technology that helps customers provide comprehensive, fully automated, and easy-to-use cloud services worldwide.

ngena is a global company with business operations in the United States, Latin America, Europe, and Asia. To learn more, please visit: www.ngena.net.
